Problem Landover was awarded a contract to design and develop mission planning software for the "ICO" project run out of HITS in Denver. The development hardware has been installed (Sun Ultra "mirfield"); however, the compiler (SparcWorks) and SYBASE client/server software were only recently procured. Development schedules will slip if these COTS packages are not installed in a timely manner.			
Proposed Solution Install and configure SparcWorks, SYBASE OpenServer and SYBASE OpenClient on the Sun "mirfield" (IP# 155.157.115.31). Kelly Pierson (x1036) has the SparcWorks package. Tony Cetuk (x0421) has the SYBASE OpenServer and OpenClient packages.
